

December 8, 2003

Dear Family member:

Season's Greetings to all of you and your families. At this time of year we are all enjoying each other and the company of family members. We want to thank you all for your generous giving and support in what we are building together.

This month we will share with you precious stories from Thailand and Cambodia. You can be a part of building a home in Thailand or building your own extended family by helping **Serving Our World** care for the needs of children in Cambodia and around the world.

Our lives have been so rich in comparison to some of the children in the stories you are about to read. Many of us don't know what it is like to be hungry or alone. Children should never have to know hunger or carry the burden of where will they sleep tonight.

In this season and as the year comes to a close, let us give so that others will be able to enjoy the same feelings of a family loving and caring for them! We can make a difference in someone's life this Christmas and the year to come.

Together touching lives,

Michael Thomforde
Founder/President

*One choice can change a life
this holiday season.*
