

## Building Futures

Another area of opportunity is for those who would like to provide furniture. Here is a breakdown, no matter what you can give it will go to make a lovely home for those without.

- **Bunk Beds** = \$75.00 each (25 sets)
- **Bedding** = \$15.00 a set (pillow, sheets & blanket)
- **School Desks & Chairs** = \$28.00 each (50 sets)

**Together a village is receiving hope and healing by your gift.**

Yes, you could be the **ONE** to put these children in a comfortable bed each night instead of a grass mat on the floor with no pillow like they normally sleep on.

For others we have a wonderful opportunity to purchase seven acres of land connected to the *Good Life Home and Center* for only \$5,000.

This land would be farmed and provide all the rice needed for the home and even some more for those in the village. Just think for a one time gift or gifts towards this land will be producing and feeding hundreds year after year.

Other monthly costs are for medical and dental care. Just recently Anna had to spend a few days at the hospital getting the medical treatment she needed to recover completely. There is no greater way to show love in action then to provide children with the medical attention they need.

So whether it's our staff with willing hearts responding to each child or you through your giving, we all can be a part to care for those in need. Building and raising families takes more than what one can do but added together we become a part of the solution which produces results.

Dear Family member;

This month we want to share with you an inside look of all that it takes to put together the projects we have been telling you about. You see they are not just good ideas, but a vision which is carried about every day with the passion and desire to do something that we know will change children and families forever.

These columns are in place and each one is necessary to support the 2nd floor where many boys and girls will sleep peacefully and enjoy the shade and protection that these columns will help provide.

You could be the **ONE** who would give to pay for a column. And in turn you are supporting for years to come the many boys and girls, like Anna last month, who needed someone like you to be a part of the solution. Give towards the 22 columns at \$475 each makes you a lasting support of those needing you.

**It's easy to build a Good Life Home and Center.**

For Gwen and I it is just wonderful to see all the different things coming together as we continue to trust for the needs of these precious children we serve in Thailand and East Timor each month.

Coming in August - New Projects Photo Report

## Touching Lives

I know there are many needs but NOW look at all those that have joined the **Serving Our World** family and the **ONE + ONE**, and the changes that they are producing.

Lindsay Anderson of Washington state, a 7th grader who all by herself put together a garage sale and sent her donation of \$130.00 for the Tsunami relief.

**ONE  
+  
ONE  
=  
CHANGE**

**Serving Our World** wants to be a conduit for you, your organization or your business to bringing physical results which will equal lasting changes for those in need.

A local church pastor from Tulsa,

Oklahoma wanted to see physically what is taking place. Pastor John Gamble went on the last trip to Thailand to experience for

himself what is possible when others get involved. "I'm overwhelmed and excited about the work

**Serving Our World** is doing and glad for my church to be involved."

## TOGETHER LIVES ARE CHANGING

Your one time or monthly gift is a daily support for those in developing nations who see it as a miracle. Like in East Timor for the first time in a small out of the way village in the mountains, they are receiving support for 100 children who are happy to be enjoying regular meals, education and fun each week. *And the cost for each child is only \$8.00 a month!*

You can be the ONE to provide each month the food, teaching staff and materials for these precious children.

Today, if you haven't, start and join the **Serving Our World** family that has a passion for those hurting, in need and going without. Your plugging in to serve others will be more fulfilling and life changing than you know.

**Change is taking place, Be a Part!**

Annan, commented as we dedicated her families new home, after hers was totally destroyed in the Tsunami, "I'm living in a dream; I never thought I could have this nice of a home.

As we asked her how she felt she replied with tears in her eyes, "I thank God for the best chance He gave me."

\* See more at the Relief page on our website

Oh, one of the Tsunami area children that we care for, just won a Gold Medal for running the broad jump. We are so proud of her! They are all experiencing a whole new life because as we're all involved we see the physical joy and fulfillment of all their hopes and dreams starting to come to pass.

Recently we travelled to Dallas, Texas and Tulsa, Oklahoma to meet and share the passion and joy of caring for others. We have "Family Packets" filled with reports and a DVD showing what is taking place as **ONE + ONE** people are being cared for and love is expressed.

If you have some business persons or your church work in a group that likes to help others. Call 949-363-7343 or e-mail us at [contact@servingourworld.org](mailto:contact@servingourworld.org) and we will send you some info to help get the word out.
