

growing stronger

The good news for this month is the *Good Life Home* has grown a little as we moved our son Joshua and his wife Tayla to live in the village and help oversee the *Good Life Home* and **Serving Our World's** Thailand projects. They are very excited and will be sharing from their daily experiences so you will get an even greater

look at how together lives are being changed.

They began by helping staff and the children, along with getting to know some of the extended families of the children. While moving them in we had a special birthday party for Bee as she was turning 13.

Her father came to her party and as Joshua and I sat down on the floor he came to introduce himself to us. He sat down and grabbed my arm and also put an arm around my waist and as he did he spoke in Thai. With smiles he was telling us how very grateful he is to have us take care of Bee as he could no longer financially

Meet Bee

She is a young beautiful girl who likes the normal things that every other girl her age likes. She received a new outfit for her birthday and was thrilled to have been given some new clothes. Bee's mother died when she was young so she has been the one responsible for many things at home. She is such a fun girl to be around and enjoys her family at the *Good Life Home*. Our desire for Bee is that she will be able to dream for a big future!

support her. And sometimes that can mean a child like her could be sold to support the rest.

But is it not wonderful that right now, as you are supporting **Serving Our World**, you are a part of the answer and strengthening the results! We could welcome Bee in because we have a home out where the need is, where boys and girls can be rescued. You are an integral part of saving these children from harm.

Your giving today opens the door to endless opportunities for more children to enjoy a wonderful childhood in a loving home.

Making it possible for someone else will make it possible for you!

Touching Lives, Building Futures

Take a look at what YOU are doing through Serving Our World

east timor

In every place that we are serving others, we are seeing change, which is strengthening the lives of those we are touching. Mateus is our new staff member joining the seven others who are dedicated and reaching places that are not just down the road, but out of the way and in need.

He recently went up to our village of Liquidoe, high in the mountains, to get hands on experience and to find out for himself what is taking place and what effects the **Serving Our World** project is having. The good news was that as he talked with the staff and families that are participating he heard very positive results!

Because of your continued support the classrooms are now growing, so they had to be split into three different rooms, the challenge is we need a bigger place! We need your help to make it possible, a four classroom building with bathroom facilities and ample water storage would provide some of the basic necessities for this remote village.

The people and leaders are so excited about the progress and even though the country is experiencing turmoil, wonderful things are taking place and lives are changing. Children are receiving education and being fed, along with a whole village that is seeing when people come together things began to change.

While Mateus was there he talked with many families who have a very hard time providing food and the necessary basic needs. They want to help **Serving Our World** build this project as there are so many more children that need to be reached. Their future is at stake so that hunger will not be felt and we can share the life saving message that brings hope and peace. Your giving today will change their tomorrow!

Serving Our World is a member of GuideStar, organization for accountability of non profits. Registered in the USA as a 501c3 charity, also registered in East Timor as an International NGO.

Message from the founder

Each day in every location we are witnessing not only a growing family, but people coming together to serve others. We are experiencing as each of us add our strengths we are able to do more for those needing a loving hand and share the Good News, which changes lives forever. Each one of these children is eager to learn and be involved. Today, look around and share hope with someone and see the smiles of change. Be a part of the **Serving Our World** family and help us make it possible for many others today!
